

## COMPLIMENTARY ACCESSORIES

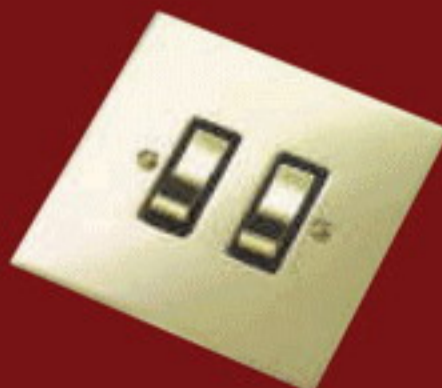

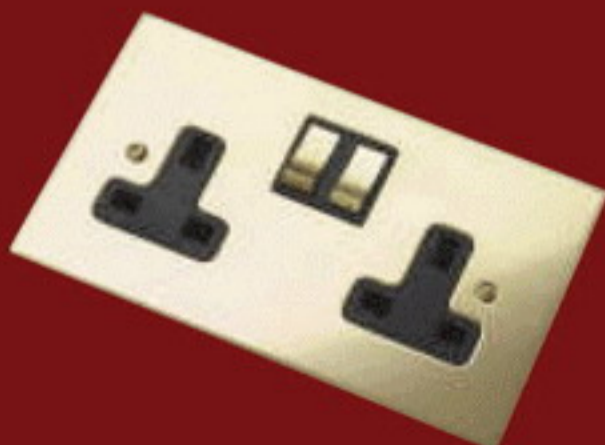

With our "in-house" **manufacturing** facility we can combine different interiors with other plate designs and we have the **technical** ability to create a mixture of interiors on to one plate to suit your individual requirements.

**Engraving** can be supplied as requested and the large plate shown also illustrates our facility to pierce **Wandsworth series 2** interiors

**Zinc and Colour Passivated Steel Plates.** The applied finish creates a primed base for any colour required for your individual décor. We can also supply **Cold Rolled Raw Steel** plates in a Bright Finish that is suitable for patining, or **Hot Rolled** that is suitable for forging.

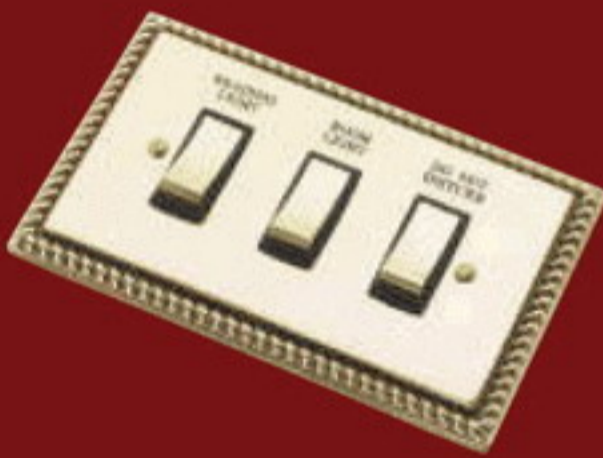

As an alternative to our Flat Victorian Bevelled Edge Plate, we can offer **Square Cornered Plates**, either unlacquered or to any finish you may require.

## COMPLIMENTARY ACCESSORIES

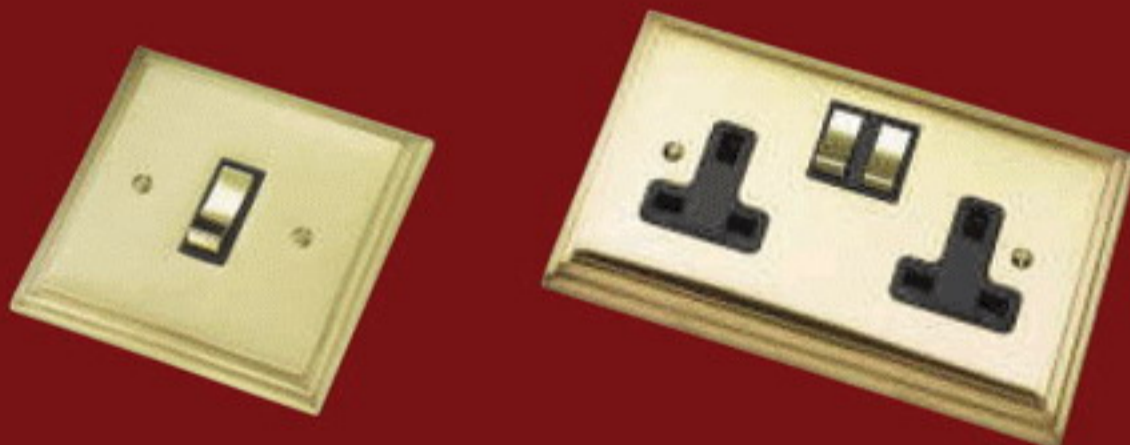

We have shown our **small Georgian and Adam Plates** that measure 88mm x 88mm & the double plate is 148mm x 88mm. These offer an alternative plate size to our standard range and are available with all interiors, as per items in the catalogue.

As an alternative to our 2mm thick Satin Chrome Collection, we can offer 1.5mm thick Satin or Polished **Stainless Steel Plates**.

An all over **Satin Brass** finish depicts an increasingly popular range in contemporary design. Also available with a Polished Edge.

**Concealed Fixing** Dolly and Dimmer Switches offer a strikingly different appearance.

Please use the following code numbers when ordering:

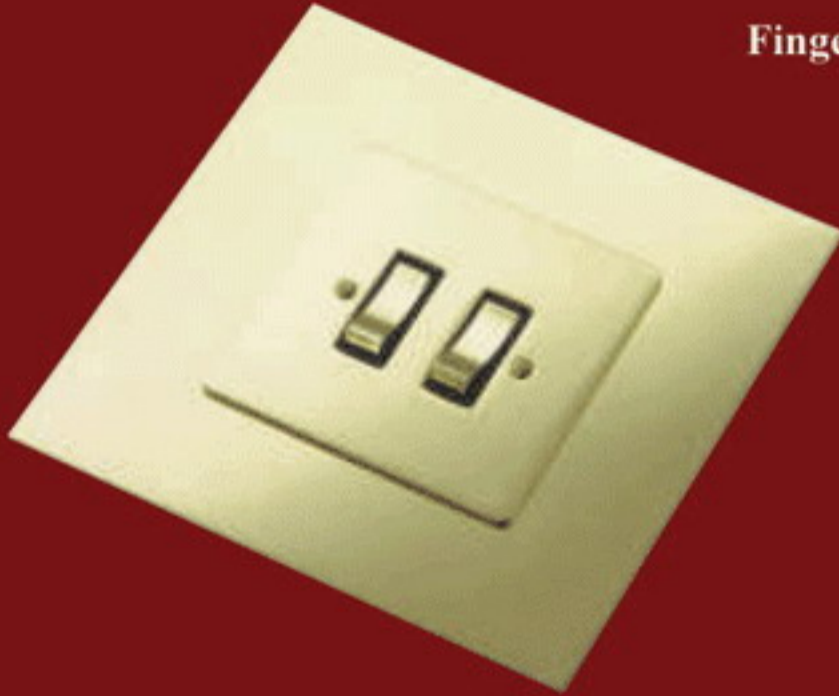

**PPV200** 20amp 2 way Dolly Switch

**PPV201** 20 amp Intermediate Dolly Switch

**PPV204** 2 way 400va Push on/Push off Dimmer Switch
